

TOP 10 CHECKLIST FOR SELECTING A SAFETY MANAGEMENT SOFTWARE

THE RIGHT Technology Amplifies the Management System

1. Ease of use for end user.
2. Internal Responsibility System Workflow – track progress of forms/documents from worker to supervisor to management.
3. Corrective Action Management Workflows: assign to multiple people in the same form, highly visible on all app home pages (not in emails) of the responsible people, track, report consistently.
4. Promotes correct process / raise employee performance.
5. Due Diligence Details: i.e., Tracks document expiry and revisions
6. Web, mobile, offline capabilities
7. Highly customizable so that it works for your business.
8. Can it grow with you? (add on training management, online training, course builder, contractor management etc.)
9. Supplier setup, support, responsiveness; check G2, Capterra, References
10. Offers a Free Trial period: [1LifeSoftware.com/1Life-free-trial](https://www.1LifeSoftware.com/1Life-free-trial)

The 1 Solution to keep your people safe, so you can grow an excellent business.
